PROJECTS

Thunder me

A fully responsive social media PWA just like Twitter.

<https://thunderme.herokuapp.com/>

- Used Express to build RESTful APIs. PUG and jQuery for the Front End and MongoDB as the database.
- Service workers to serve offline and to be installed as an App

Online Classroom

A Virtual role-based classroom to teach, stream assign and complete tests and contact with other people real time.

<https://classroom-task.herokuapp.com/>

- Role based learning. Made completely with REST APIs with Express. Used MongoDB for storage and jQuery and PUG for the Front End

Talk

A Disposable Private Messenger on socket.io

<https://disposeable.herokuapp.com/>

- Used socket.io to handle real time communications, jQuery, PUG for Front End

Search Engine

Search for sites and images

<https://search.up.railway.app/>

- Used Express to build RESTful APIs
- Created a Crawler Bot using node-fetch, cheerio to crawl.

UrL-iT

Shorten your URLs with ease and generate QR for it

<https://url-it.rf.gd/>

- Used PHP, MySQL as backend and jQuery as front-end
